2. Introduction and Background

Jamaica welcomes potential investors to participate in the investment opportunities in the timeshare market. In answer to the calls of prospective investors who have shown interest in establishing the Timeshare /Vacation Ownership in Jamaica, JAMPRO is delighted to partner with key market players as Jamaica implements the requisite legislations to govern this product which is new to our tourism industry.

With the approval of the Timeshare Vacations Bill in the Jamaican Senate on 28 November 2014, the Jamaican Tourism Sector is at the brink of embarking on this exciting tourism product which is expected to churn new investments into that sector. This new product offering will enable us to capitalize on the demand of our guests to own a second home in Jamaica or the Caribbean.

Jamaica is focused on developing a sophisticated tourism product that will embrace the timeshare/vacation ownership market. Jamaica's hotel accommodation inventory is to be increased with the expansion of the various hotels room stocks such as Royalton Memories White Sands Resort, Hyatt Ziva by Playa Hotels and Resorts and the Marriott Group¹. Included in the mix of accommodation are leisure resort facilities including mixed use vacation development with luxury condo resorts and elegant residences. Mixed-use resorts are rapidly expanding globally and cater to the timeshare, vacation ownership plans, condo-hotel residences and fractional ownership. The developers of these facilities are keen on introducing timeshare development such as fractional models, vacation ownership and horizontal property regimes². Jamaica already has Foreign Direct Investments (FDI) which is conceptualized and developed around a mix of vacation concepts such as Fiesta, Iberostar, Negril Peninsula and AM Resorts³.

Timeshare has been the most significant driver of businesses in the worldwide hospitality sector. Research has shown that vacation ownership is one of the fastest growing sectors of global hospitality. With the recent passage of timeshare legislations, Jamaica is now poised to enter this industry and creating an access for both local and international investments. With a vision 2030 goal of a prosperous economy, Jamaica is seeking to build strong economic infrastructures, an enabling business environment, energy security and efficiency, international competitive industry structures along with a stable macro economy.

The development of internationally competitive industry structures is expected to assist the microeconomic conditions for increased productivity throughout the Jamaican economy.

4. Role of JAMPRO

JAMPRO is the national trade and investments promotions agency. One of our key functions is the packaging and promotion of investment opportunities and the conversion of investment prospects into viable projects. JAMPRO was first established in 1988 to stimulate, facilitate and promote the development of trade and industry, export and investment activities in all sectors of the island's economy. The agency drives this process through focusing on a number of targeted sectors which include tourism.

JAMPRO works closely with local and global entrepreneurs seeking to tap into the many investment and trade opportunities in Jamaica. In facilitating both local and foreign direct investment, JAMPRO guides investors through the necessary processes and offers support in partnership with key government agencies and ministries, even after their investments are operational.

JAMPRO provides an array of services to the export community – including export registration, and provides export development advice and export promotion (exposure for goods and services entering the export markets). JAMPRO is also an integral partner in Jamaica's implementation of the World Trade Organizations (WTO's) Trade Facilitation Agreement that will ensure the country reaps the benefits of standardized trade/border practices that will result in reduced transaction costs.

5. Investment Opportunity

5.1. Overview of timeshare industry

5.1.1. What is timeshare?

Timeshare or vacation ownership is the acquisition of future holidays at today's prices. Timesharing allows for multiple individuals to share the rights to use the property within an allotted time frame usually fixed to a particular week of each year. This right being conferred is in consideration of a premium and an obligation to contribute to the maintenance of the property. Timeshare has become popular across the vacation destination markets especially in the United States of America. It is an evolving and profitable segment of the hospitality industry.

The timeshare concept dates back to over 50 years ago and started out in Europe in the 1960s as an innovative way of increasing holiday choice. Vacationers had the alternative of buying rights of occupancy in a property, usually in multiples of one week for either a set period or in perpetuity. This became popular over the norm of booking vacations in a resort or purchasing a holiday property outright⁶. The flexibility aspects of timeshare where an owner can either use his allotted week or rent it or pass it to friends and relatives made owning a timeshare more attractive.

5.1.2. Market opportunities in the industry

The timeshare industry is said to generate revenues of over US\$14 billion per annum in sales and US\$45 billion in economic output in 2010 according to ARDA International Foundation. It is further said to consist of 20 million timeshare owners worldwide with Europe accounting for over 1.5 million timeshare owners. The European market is said to have over 1,312 resorts of which timeshare generates £3.2 billion in tourism expenditure annually with high occupancy level averaging approximately 72% yearly⁷.

In 2012, the United States of America had a record of 1,551 timeshare resorts comprising of 189,222 units⁸. In 2013, an expected 5 new resorts were said to be completed with an associated 166 timeshare units. For 2014, the US resort markets was said to have planned the construction of 63 new resorts with an associated 306 timeshare units. Timeshare has contributed positively to the US hotel occupancy levels. The comparative chart below shows timeshare vs hotel occupancy and depicts the contribution of timeshare volumes to the US hotel occupancy levels on a quarterly basis from 2011 to 2013.

5.1.3. Operating performance – the case of Marriot Vacations Worldwide Corporation timeshare properties

Marriott Vacations Worldwide Corporation is a worldwide developer, marketer, seller and manager of vacation ownership and related products under the Marriott Vacation Club and Grand Residences by Marriott brands and The Ritz-Carlton Destination Club Brand⁹. The corporation is said to operate 62 properties in the United States and nine other countries and territories as at 3 January 2014. Marriott's operation is grouped into three segments North America, Europe and Asia Pacific. Marriott generates most of its revenues from four primary sources namely:

- Selling vacation ownership products;
- Managing its resorts;
- Financing consumer purchases of vacation ownership products; and
- Renting vacation ownership inventory;

¹⁰For the 2013 fiscal year, Marriott recorded US\$672 million from the sale of vacation ownership products compared to US\$618 million in sales for 2012. This represented an increase of 9% over 2012. The North America market was responsible for US\$623 million in contract sales, up from US\$40 million from 2012. This was said to be driven by an 8% increase in volume per guest (VPG) to \$3,200 in 2013 from \$2,963 in the previous year. Resort management and other services generated US\$260 million for 2013 in comparison to US\$253 million generated in 2012, representing a marginal growth by 0.03% over 2012. The financing segment earned US\$141 million for 2013 against US\$151 million for 2012, representing a similar marginal decline of 0.06% over 2012.

The rental segment generated US\$262 million for 2013 in comparison to 2012 of US\$225 million. This represented an increase of 16% over 2012. See extract of operating segment below.

5.2. Potential development opportunities in Jamaica's timeshare market

There is a current gap for more hotel rooms in Jamaica. As at July 2014, Jamaica's hotel room inventory stood at 22,057 provided through 200 hotels according to Smith's Travel Resource ("STR"). The current number of hotels indicates further that there has been an approximate decline of 21% in the number of hotels since 2009 when Jamaica had 252 hotels.

⁹ Marriot Vacations Worldwide Corporation - Form 10K Annual Report 2013

¹⁰ Marriot Vacations Worldwide Corporation - Form 10K Annual Report 2013

Jamaica’s accommodation inventory is to be increased with the expansion of luxury hotels room stocks such as Royalton Memories White Sands Resort, Hyatt Ziva by Playa Hotels and Resorts and the Marriott Group as early as 2015. Despite the pending increase in room stocks, the Jamaica hotel sector still has much to offer in serving the different needs of potential guests.

Presently, Jamaica’s hotel resorts are concentrated mainly in Negril, Westmoreland with 64 hotels and 5,364 rooms; Montego Bay, St James with 51 hotels and 7,918 rooms; and Ocho Rios, St Ann with 40 hotels and 6,408 rooms, as depicted in the chart below. There is a therefore a significant opportunity for hotel developments in the other parishes of Jamaica.

Source: STR Global

The Jamaica Tourist Board (JTB) is projecting that the growth in tourist arrivals for 2015 will be 2.6%. While the country has been experiencing growth in the number of arrivals, this growth is being constrained by a lack of room inventory. Over the last 3 years, new investment in the Jamaican hotel industry has been targeted at the higher end of the markets, with a focus on the luxury all-inclusive concept.

Now is the opportune time for investors to develop timeshare accommodations in Jamaica. Jamaica currently receives approximately 10% of the Caribbean tourism market and ranks third among the most popular destinations in the Caribbean. In addition to the island’s many beach attractions, Jamaica’s other popular attractions include the:

- Bob Marley Museum, Kingston
- Green Grotto Caves, St. Ann
- Rose Hall Great House, St. James
- Devon House, Kingston
- Dunns River Falls, Ocho Rios
- Dolphin Cove, St. Ann
- YS Falls, St. Elizabeth

5.3. Key components of the proposed timeshare scheme

Structure of timeshares¹¹

The legal structures of timeshare properties are said to be complex and usually take two forms referred to as:

Forms	Description
Fee-interests or title-based schemes	<p>Ownership of timeshare may be broken down into:</p> <ul style="list-style-type: none"> <input type="checkbox"/> <i>Tenancy-in-common</i> or time span ownership where the purchaser of the timeshare acquires an individual ownership interest in real estate; <input type="checkbox"/> <i>Interval ownership</i> which stipulates in the deed, a legal estate in the land coupled with a tenancy in common at the end of the timeshare plan; or <input type="checkbox"/> <i>Estate for years</i> where the timeshare purchaser acquires a lease limited in time; <hr/> <p>Under the title-based schemes:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Purchasers of timeshare receive an undivided interest in the property which convey a fee interest in real estate to the buyer; <input type="checkbox"/> The nature of the rights of the purchaser will vary according to the nature of the property rights in different countries
Right-to-use	<p>These properties are structured into three main forms:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Vacation lease where the timeshare owner acquires a lease of the property for a specific number of years; <input type="checkbox"/> Vacation licenses which constitute a personal interest to use the property without the estate; <p>Club membership timesharing which can operate like a proprietary club or on a quasi-ownership basis;</p>

5.4. Enabling environment for timeshare industry

In December 2013, the Omnibus Incentives Legislation was passed which seeks to provide a competitive regime for all sectors. The suite of legislation comprises the:

- Fiscal Incentives Act;
- Income Tax Relief (Large-Scale Projects and Pioneer Industries) Act;
- An amendment to the Customs Tariff (Revision) Resolution; and
- An amendment to the Stamp Duty Act.

The Omnibus Incentive legislation repeals the Hotels (incentives) Act and the Resort Cottages (Incentives) Act. The incentives applicable to attractions licensed by the Jamaica Tourist Board include:

- Employers' Tax Credit (ETC) – investors could benefit from corporate income tax rates capped at 30% of income tax liability. Corporate income tax could however be as low as 17.5%;
- Duty-free Importation of Equipment and Machinery – persons operating within the tourism sector can benefit from duty free importation of industry-related consumer goods, as well as revised tariff rates ranging from 0% to no higher than 20% (with some exceptions);

¹⁸ The Timeshare Vacation 2014 Section 16 & 17

- Productive Input Relief (PIR) – the sector will benefit from duty free importation of certain hotel industry-related items that would have normally attracted customs duties and the Additional Stamp Duty (ASD) when these are being purchased for productive use. It will also be exempted from environmental levy on productive inputs;
- Capital Allowances – the legislation has broadened the definition of ‘industrial buildings’ to include hotels, allowing players in the sector to benefit from additional Capital Allowance incentives.
- Other tax incentives – Lower GCT rate on hotel operations of 10%

Other legislation in force that seeks to regulate the tourism sector includes:

- **The Tourist Board Act** – This act establish a tourist board with the duty of developing Jamaica’s tourist industry and its efficient management.
- **Tourist Accommodation (Licence Duty) Act** – This act provide for the imposition of licence duties in respect of the operation of tourist accommodations.
- **Tourist Shopping Act** – the regulation of hours of trading in craft markets and tourist shops.
- **Casino Gaming Act** – This act establishes a regulatory scheme for the conduct of casino gaming in Jamaica and to encourage the establishment of a number of substantial integrated resort developments by licensing the carrying on of casino gaming as part of a mix of various tourism amenities and facilities available to guests of hotels in such developments.
