MANUFACTURING PROJECTS

05 PROJECT TITLE: RECYCLED SMART STREET LIGHTS

Location: St. Catherine

Summary

Solid Power's recycled smart streetlamp is an award-winning innovation, using aluminum waste, IOT technology and solar power. The project is expected to significantly reduce the amount of aluminum waste discarded and provides an alternative to traditional lamps using 40% less energy.

The company is seeking equity investment for its rollout.

Available Documents: Financial Assumptions

06 PROJECT TITLE: ST. THOMAS RENAISSANCE FOUNDATION APPAREL MANUFACTURING

Location: St. Thomas

Summary

The St. Thomas Renaissance Foundation Inc is a registered non-profit organisation focussed on local economic development. The organisation is proposing to develop a garment manufacturing facility in St. Thomas for the export market, targeting large retailers in the USA. In partnership with a research and marketing firm, the Foundation has developed a multi income business model to promote St Thomas and Jamaican culture, as well as provide opportunities for citizens.

The St. Thomas Renaissance Foundation Inc is seeking equity investment or partnership in its operations to commence activity.
